## Logo Misuse

Do not stretch

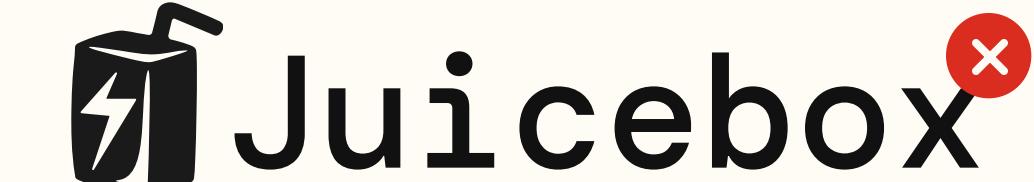

Do not rotate icon

Do not use random colours

Do not pair with random fonts

Always ensure logo has enough contrast

Always ensure logo is readable

Always ensure logo has breathing room

# Color Palette

## THE COLOR PALETTE

Inspired by tropical fruits and good times,  
the new Juicebox color palette conveys our  
playful nature while building trust and  
setting us apart from the crowd.

## Color Palette

# Typography

## INTRODUCING AGRANDIR

Agrandir is a contemporary sans serif that celebrates the beauty of being imperfect. It was designed to be a brave antipode to neutral modernist fonts. Agrandir accepts its own shapes as they are – unaligned, quirky and funky. It celebrates humanity, not machines.

TYPE EXAMPLE

## Fund anything

The programmable funding protocol for builders and creators. Light enough for a group of friends, powerful enough for a global network of anons.

### How it works

The programmable funding protocol for builders and creators. Light enough for a group of friends, powerful enough for a global network of anons.

### Payouts

Add payouts to wallet addresses or Juicebox projects to receive funds from your treasury each cycle. Any unallocated funds will stay in your treasury for use in a future cycle, or to be claimed by token holders.

**Limited****Unlimited****None**

You will pay out a specific amount of funds from your treasury each cycle. These funds are allocated in 'Payout Addresses' below.

#### Payout Addresses

Add wallet addresses or juicebox projects to receive payouts.

Add Payout

Payouts to Ethereum wallets will incur a 2.5% fee. Sending funds to other Juicebox projects will not incur any fees. [Learn more about fees](#).
